

Supporting the Transition to a Low-Carbon Economy

For nearly a decade, TD Bank Group has been a leader in supporting the transition to a low-carbon economy. TD continues to build on its leadership, targeting CDN \$100 billion (USD \$78 billion) by 2030.

Our Milestones:

TD Economics issues its first paper on carbon pricing

2009

Listed on DJSI World Sustainability Index (2014-2017)

2014

Met our 100% renewable electricity commitment

2015

First major North American-based bank to become carbon neutral

2010

First Canadian bank to issue a green bond

2014

By 2016 helped protect 60,000 acres of critical forest habitat and helped plant nearly 1 million trees across North America

2016

Leading the way in 2017

TD Friends of the Environment Foundation enters its 27th year with the support of more than 180,000 donors, having provided approximately \$82 million to over 24,000 environmental projects and programs across Canada

Issued (USD) \$1 billion green bond offering, TD's first in the U.S.

One of 16 global banks

piloting recommendations for the Financial Stability Board task force on climate-related disclosures for the United Nations

Through this Initiative TD will:

- 1 **Target CDN \$100 billion (USD \$78 billion) by 2030**, working with companies, ventures and projects that are driving innovation and contributing to carbon emissions reduction, energy-efficient housing and urban green space enhancement
- 2 **Enhance focus on successful green bond strategy**, which includes issuing, underwriting and investing in green bonds
- 3 **Help plant one million new trees** in urban green spaces across its North American footprint
- 4 **Continue to reduce TD's carbon footprint**, sustaining a nearly seven year record of carbon neutrality
